2. Reasons for the Revision

With respect to the full-year earnings forecast for the fiscal year ending March 31, 2026, the Company has decided to maintain its previous forecast for net sales, as it remains necessary to carefully assess market trends and changes in the external environment, particularly from the fourth quarter onward.

On the other hand, based on the solid performance achieved in the third quarter, operating profit, ordinary profit, and profit attributable to owners of parent for the fiscal year ending March 31, 2026 are now expected to exceed the previous forecast. Accordingly, the Company has revised its full-year earnings forecast as stated above.

In addition, regarding the quantitative targets for the final fiscal year (the fiscal year ending March 31, 2026) under the *"Doshisha Group Medium-Term Business Plan"* announced on May 9, 2024, the Company has revised the target for consolidated ordinary profit to 11,600 million yen, as stated above.

(Note)

The above forecasts are based on information available to the Company as of the date of this announcement and on certain assumptions deemed reasonable.

Accordingly, actual results may differ materially from these forecasts due to various factors.
